Introduction

Movable Gantry Crane – Versatile, Efficient, and Reliable Lifting Solution

The movable gantry crane is a highly flexible lifting solution designed for operations that require mobility, efficiency, and strength. Unlike fixed cranes, it can be easily relocated within a workspace, making it ideal for factories, warehouses, workshops, construction sites, and outdoor lifting operations.

With its sturdy steel structure and adjustable height options, it offers a cost-effective alternative to permanent lifting solutions. Its high load capacity ensures safe and precise handling of heavy materials, while its ease of installation and maintenance minimizes downtime. By bringing lifting capabilities directly to the work area, a movable gantry crane enhances workflow efficiency, increases productivity, and provides businesses with a reliable and adaptable lifting system to streamline their operations.

General dimensions

CAPACITY (KG)	TÍP/TYPE	S (m)	H (m)	E (m)	D (m)
500	VC05MGC22	2	2	1	120
500	VC05MGC225	2	2,5	1,2	120
500	VC05MGC252	2,5	2	1	120
500	VC05MGC2525	2,5	2,5	1,2	150
500	VC05MGC325	3	2,5	1,2	150
500	VC05MGC33	3	3	1,5	150
1000	VC1MGC2525	2,5	2,5	1,2	150
1000	VC1MGC253	2,5	3	1,5	150
1000	VC1MGC325	3	2,5	1,5	150
1000	VC1MGC33	3	3	1,5	170

Our branches and warehouses are strategically located across Turkey to serve our customers efficiently. Here are our locations:"

- **Kahramanmaraş:** Onikişubat, Gayberli Mah. 28045 Sk. No: 58
- **Eskişehir:** Odunpazarı, İstiklal Mah. Reşadiye Esnafı Sk. No: 44/2
- **Gaziantep:** Nurdağı, Yeni Mah. 1007 Sok. No: 8
- **Osmaniye:** Merkez, Mevlana Mah. 17053 Sok. No: 21, Oduncular Site
